Deliberative Process/Ex. 5

Other than that, without doing a risk assessment, if there are sites in the same ecoregion where risk assessment and cleanup was done, you could use those values.

I'll ask someone else here to weigh in on this. Also, have you talked with Rauscher about how they might do things in R6? Some consistency here would be a good thing.

He is familiar with the numbers you sent and is good with them.
Can you also send your recommendation for action levels?
